

## Sample Itinerary

### Day 1 - Welcome to Italy!

Arrive in Bologna or Venice and meet your Fulltime Guide before transferring to your hotel. Enjoy a relaxed Welcome Dinner and an introduction to Italy's fascinating blend of history, innovation, and world-class craftsmanship.

### Day 2 - Ducati & "Physics in Motion"

Kick off your STEM adventure at Ducati, where a hands-on workshop reveals how physics and engineering power world-famous motorcycles. Later, explore Bologna's medieval towers, lively piazzas, and hidden architectural gems with your guide.

### Day 3 - Pagani & Lamborghini

Start your engines! Experience Italian supercar mastery with visits to Pagani and Lamborghini. See how artisans and engineers combine precision, composite materials, and high-tech design to build iconic hypercars. Enjoy free time in Bologna in the afternoon.

### Day 4 - Ferrari Experience

Enter Ferrari's legendary world with an epic factory and museum tour, a technical workshop, and an exhilarating simulator or passenger track experience. Then switch gears for a fun, hands-on pasta and pizza class celebrating Italian food and creativity.

### Day 5 - Dallara Academy & Milan

Travel toward Milan with a stop at the Dallara Academy, where cutting-edge racing technology, aerodynamics, and innovative engineering come to life through interactive labs. Continue to Milan, check in, and enjoy dinner in Italy's design capital.

### Day 6 - Leonardo da Vinci's Milan

Explore the Leonardo da Vinci Museum of Science and Technology, where models and hands-on activities illuminate the genius behind Italy's greatest inventor. Spend the afternoon visiting Milan's iconic Duomo, Galleria Vittorio Emanuele II, and modern Piazza Gae Aulenti.

### Day 7 - Engineering & Innovation

Discover Italy's most influential industrial designs at the ADI Design Museum, home to Compasso d'Oro award-winning innovations. Enjoy free time to explore Milan's vibrant neighborhoods before a Farewell Dinner celebrating your incredible STEM journey.

### Day 8 - Departure

Enjoy breakfast, check out, and transfer to the airport – taking home a week of inspiration, innovation, and unforgettable Italian experiences.

Ignite your passion for engineering, innovation, and design on this unforgettable STEM adventure through Italy!

From world-famous supercar factories to hands-on labs, cutting-edge museums, and iconic landmarks, this experience brings technology to life in the heart of Italian creativity.

## Highlights

- Ducati Museum & "Fisica in Moto" Workshop (Physics in Motion)
- Bologna City Tour
- Pagani Museum & Factory
- Lamborghini Museum & Factory
- Ferrari Museum, Lab & Track Experience
- Dallara Academy & Interactive Lab
- Milan City Touring
- Leonardo da Vinci Museum of Science and Technology + STEM Activities
- Duomo
- Galleria Vittorio Emanuele II
- Piazza Gae Aulenti
- ADI Design Museum

## Inclusions

- Roundtrip airfare
- Ground Transportation in Italy
- English-speaking Fulltime Tour Escort
- 7 nights' hotel accommodations
- Daily Breakfast & Dinner
- Admissions and Guide Services
- Taxes & Hotel Fees
